There was a time when I worked with Delphi/C++ and was passionate with Flash/ActionScript. But now I'm full-time RubyOnRails developer and passionate with Elixir.

I like to be a programmer and solve application tasks. I'm looking for a team working on nontrivial problem sets, that is interesting to dive into.

Experience

Assistant Kazan Federal University Sep 2013 - Now

System analysis and IT department employee

Web developer Flatstack LLC Aug 2011 - Now
